5b. Solve the riddle, and then make up your own riddles about continents.

This continent is between the Arctic Ocean and the Atlantic Ocean.

Lesson 2. Different places

1. 🗇 🖗 Picture dictionary.

2a. 🐣 What do you think about these landscapes? Speak in pairs.

Mountains		dry.
Oceans		wet.
Deserts		high.
Grasslands	are	cold.
Jungles		hot.
-		deep.

2b. 🗇 😡 Listen, read the texts and check your answers.

Deserts They are the driest places in the world. In the day time they are very hot but at night they can be very cold. Only animals and plants¹ that need very little water can live there. The biggest desert, the Sahara, is in Africa.

Seas and Oceans Salty seas cover² more than half of the world. Strange fish and animals live deep in the water. Different seaweeds³ look like beautiful gardens.

Mountains There are mountains on every continent. Their tops are usually covered in snow. High up the weather is cold and windy, so plants can't grow there. The highest mountain, Everest, is in Asia.

Jungles They cover a small part⁴ of the world but they are home to thousands of different plants and animals. The weather is hot and wet there all year round. The biggest jungle is in South America.

¹ plants [pla:nts] – растения

² **cover** [1 kлvə] – покрывают

 $^{^3}$ seaweeds – водоросли

⁴ **part** – часть

Grasslands There are only two seasons in grasslands: the wet season and the dry season. There aren't many trees but there's a lot of grass, so lots of different animals live there. There are grasslands in many parts of the world.
