

**7b.** Would you like to read the whole book? Why? Why not?

## Lesson 10. New technologies are improving communication?

### Option 1: Debate on the topic

**Step 1:** Work in two groups to prepare for the debate. One group proposes the motion; the other group opposes the motion. Brainstorm your arguments for or against. Be ready to provide facts supporting your arguments. Try to predict what arguments your opponent can come up with. Prepare counter-arguments. Think of a slogan to motivate the audience to vote for you.

**Step 2:** Choose a speaker to represent your group. Help them to structure their speech. It should consist of three parts: introduction, main body and conclusion. In the introduction the speaker is supposed to say what they are going to speak about. In the main body they are supposed to present the arguments and support them with facts. In the conclusion the speaker should say what they have spoken about and should finish up with the slogan.

**Step 3:** Make your speeches. Hold a vote to decide who has won the debate. Encourage the audience to be objective.

### Option 2: Poster FUTURE OF COMMUNICATIONS

Make a poster presenting your predictions for the future as far as new technologies are concerned. It might be a collage made of photos or pictures, a 3D model of some futuristic gadget, etc. Prepare to speak about the new technologies and their role in the future life of the people.

**Project** 

Are new technologies improving communication?
